

# BSA<sup>+</sup>

**PHOSPHATE BUFFERED SALINE**

**LAMPIRE**  
BIOLOGICAL LABORATORIES

**BSA<sup>+</sup>**  
PHOSPHATE BUFFERED SALINE

with antimicrobial

Catalog#: 7500840

Concentration: 10% Sterile  
Lot #: 19H54001 Size: 500 mL  
DOM: 9/3/2019 Store: 2-8° Celsius

For Research Use Only

# BSA

## PHOSPHATE BUFFERED SALINE

**Ready to Use • Sterile • Made to Order • Customizable • Bulk Sizes & Discounts Available**

**Applications: Blocking in western blotting, ELISA, IHC and nucleic acid detection methods**

To better help, and support, our customers LAMPIRE now offers BSA with PBS. This combines our two high quality products and makes an easy to use blocking agent. To ensure your lab is well stocked, be sure to view our complete list of BSA and Custom Media.

<b>#7500840</b>	<b>250 mL</b>	<b>\$110.00</b>
<b>BSA with PBS with antimicrobial</b>	<b>500 mL</b>	<b>\$185.00</b>
	<b>1,000 mL</b>	<b>\$300.00</b>
<b>#7500841</b>	<b>250 mL</b>	<b>\$60.00</b>
<b>BSA with PBS without antimicrobial</b>	<b>500 mL</b>	<b>\$95.00</b>
	<b>1,000 mL</b>	<b>\$160.00</b>

### Specifications

<b>Description</b>	BSA with PBS
<b>pH</b>	7.4
<b>Appearance</b>	Clear, Slight Tint
<b>Buffer</b>	PBS
<b>Concentration</b>	10%
<b>Storage</b>	2-8 ° Celsius
<b>Country of Origin</b>	United States

## BSA - Liquid

**Standard/ Reagent/ Cell Culture grade Custom Prepared, 30%, 35% (With or Without Preservative)**

LAMPIRE has BSA with the highest level of consistency, traceability and quality. High-purity, low-interference BSA from LAMPIRE is protease-free, IgG-free and free of contaminants that can result in background interference.

With superior solubility and filterability, no endotoxin, enzyme or protease activity, LAMPIRE BSA is easy to use and ensures assay integrity, component stability and cell culture suitability. The manufacturing process minimizes contamination and maximizes reproducibility. **Lyophilized BSA also available.**

## Cell Culture Media & Reagents

**PBS w/Ca & Mg, PBS w/out Ca & Mg, Trypsin, DMEM, RPMI**

LAMPIRE offers cell culture media, reagents, supplements and mouse embryo culture media to the Research Use Only (RUO) market for cell culture and the culturing of embryonic stem (ES) cells, both human and animal. Our Quality Management System ensures high quality and consistency.

With over 25 years experience in media production, to optimize your project results, our technical staff will work with you to create a custom formulation, specific for your needs. Call for a consultation.

- ✓ We offer OEM labeling and packaging
- ✓ AAALAC accreditation, and certified to ISO 13485:2016
- ✓ Experienced technical partner with over 40 years of industry recognition
- ✓ Technically trained, engaged and responsive project managers
- ✓ Competitive pricing, with prompt turnaround from inquiry to initiation
- ✓ Customized protocols, collection, processing and specifications

**THE  
LAMPIRE  
ADVANTAGE!**
