

Price Change Notification

by LAMPIRE Staff

LAMPIRE Biological Laboratories has served the life science industry with custom antibodies and biological products for over 43 years. By working closely with our customers, we have risen to meet the unprecedented challenges and opportunities presented by the COVID-19 pandemic.

We appreciate you choosing LAMPIRE as your scientific partner. It has been our pleasure to help you meet your custom project and/or biological raw material needs. We hope you have received the top-notch communication and technical support you have come to expect from our LAMPIRE sales, project management, service and technical support team members.

Although we have been able to hold pricing steady for over three years, these changing economic times and cost increases have dictated a price increase on standard catalog products for 2020. This pricing change is effective July 1, 2020.

For orders already quoted or placed, those quotes and prices will be honored. All new orders will be quoted with the new pricing, effective July 1, 2020. Thank you again for your continued use of our high-quality products. We look forward to our partnership with you for many years to come. Please contact Customer Service at 215-795-2838 or lampire@lampire.com, if you have any questions or concerns.

Thank you for choosing LAMPIRE.
