

"I am so proud of our LAMPIRE family and by working our strongest together, LAMPIRE will continue to stand side by side with our customers in this fight now, and for many years to come."

**- Gregory F. Krug
President**

**STRONG TODAY.
STRONGER TOMORROW.
STRONGEST TOGETHER.**

High Quality Products & Services / Competitive Pricing / Quick Turnaround / Customizable / Unique Species

Don't Let COVID-19 Stop You... Call LAMPIRE!

When you hear LAMPIRE, think quality, longevity and customization. LAMPIRE is OPEN and AVAILABLE to support our clients and the scientific community during this pandemic. Don't let the coronavirus stop your RESEARCH from moving forward. We are filling and taking orders. Choose to ship now, or ship later, LAMPIRE is here for you!

Are you facing challenges due to supplier issues, mandatory facility closings or lack of staffing? Let LAMPIRE manufacture your standard or custom material and hold it until you are ready. Why not start a project at LAMPIRE today and get ahead? Need raw materials? Be proactive and don't get caught without inventory in your lab. Now, more than ever, RESEARCH can't stop, don't let COVID-19 win!

BIOLOGICAL PRODUCTS

Animal Blood, Tissue & Abattoir | Human Material & Blood

LAMPIRE whole blood, serum, plasma donor and abattoir products are both high in quality and competitively priced. With access to over 20 unique species and over 5,000 on-site donor animals, LAMPIRE is positioned to fill your donor or abattoir, standard catalog or custom biological raw material needs both timely and efficiently, regardless of volume.

PURIFIED PROTEINS & REAGENTS

Normal & Secondary Antibodies | BSA | Reagents

LAMPIRE offers purified IgGs, with or without azide, and secondary antibodies designed for use in lateral-flow, ELISA, and other immunoassays. Our Bovine Serum Albumin (BSA) has the highest level of consistency, traceability and quality, as well as being protease-free, IgG-free and clear of contaminants that can result in background interference. LAMPIRE products can be shipped to the EU and around the world.

CUSTOM ANTIBODIES

Polyclonal | Monoclonal | Conjugation & Antibody Services

LAMPIRE specializes in polyclonal antibody services from antigen design and optimization to antibody purification. Each product begins with a review by our expert staff that will assist with species selection, antigen design, and immunization protocol. LAMPIRE also offers a comprehensive monoclonal antibody service from research to bulk scale production, hybridoma development, cell line optimization, serum free antibody production, supernatant concentration, antibody purification and characterization, cell bank production, testing and storage.

SPECIALTY PRODUCTS

Cell Culture & Viral Transport Media | OMNI C3® Cell Culture Bags

LAMPIRE offers custom tissue culture media, viral transport media, reagents, supplements and mouse embryo culture media to the Research Use Only (RUO) market. Have LAMPIRE work with you on your own proprietary formula to achieve the greatest results in your research efforts. The OMNI C3® bag is a simple-to-use product for the culture, harvest and storage of cells.

**THE
LAMPIRE
ADVANTAGE!**

- ✓ Experienced technical partner with over 42 years servicing the life science industry
- ✓ Knowledgeable and responsive sales and customer service staff
- ✓ Competitive pricing, from research sized to bulk quantities
- ✓ Customizable products available to meet your specifications
